STATION DESIGN GOALS

ENHANCE

- Community character
- Accessibility
- Transit “experience”
- CHT identity
- NSBRT brand
- Interchangeable components
- Material options
- Tech integration

MINIMIZE

- Maintenance/ operational challenges
- Cost

STATION DESIGN ELEMENTS

Natural materials (brick, stone, “wood”)
complement local character

Large canopy (roof)

Seating, lighting, platform &
amenities prioritize safety,
comfort, and rider experience

Different from local stops, but
recognizable as p/o CHT family

Prefabricated elements are cost-efficient and
easy to replace, but can still be customized
(i.e., variety in size and materials)

STATION DESIGN VARIATIONS

Station Size

Fewer Riders = Smaller Stations

More Riders = Larger Stations

Seating

Free Standing

Built In

Materials

Metal

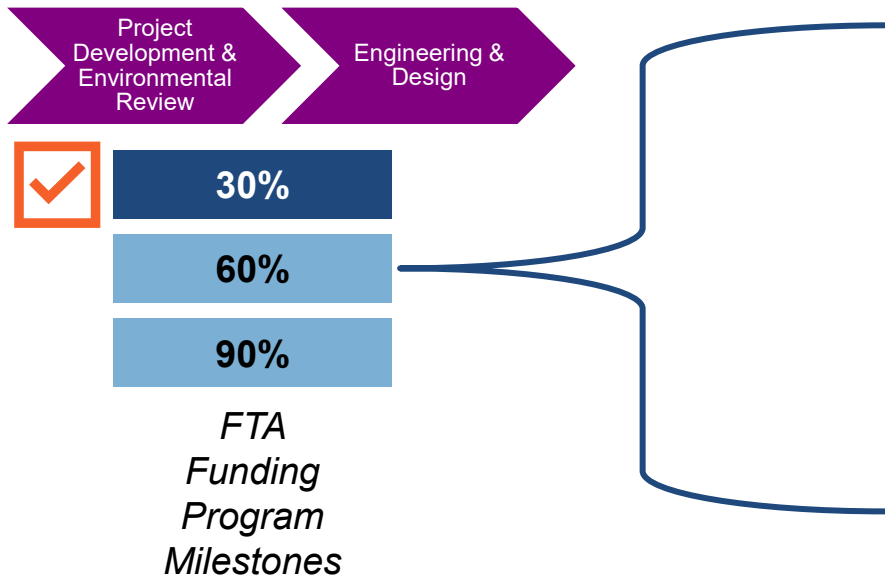

Stone

Brick

NEXT STEPS

60% design is an ongoing process; there will be additional touchpoints with the community and Town Council over the next 12-18 months.

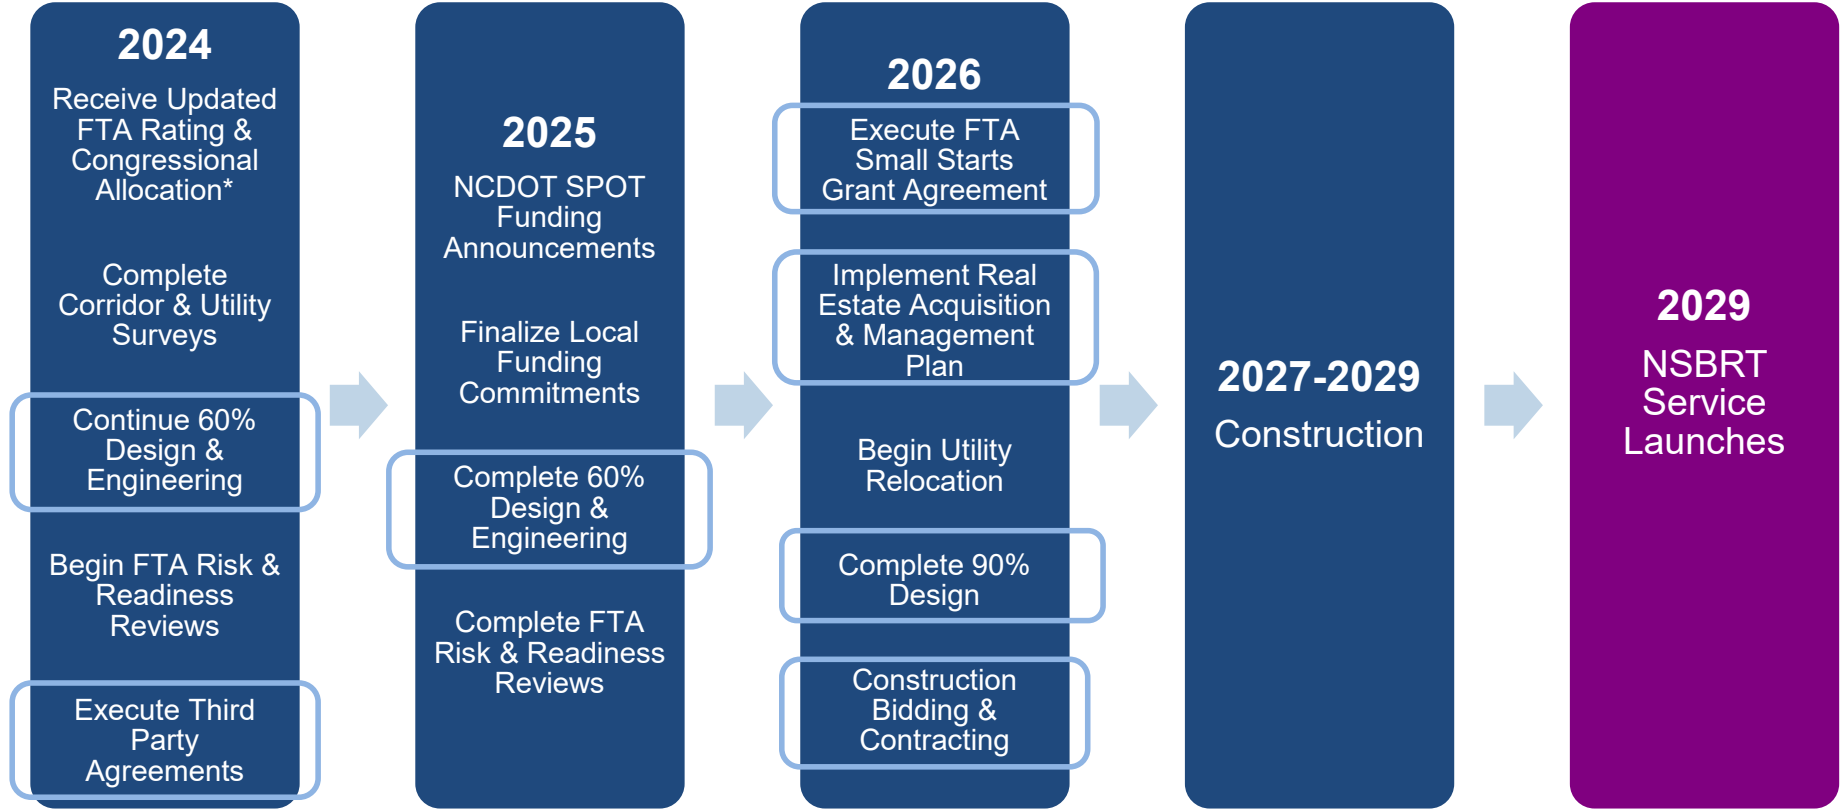

Early 2024

- Utility coordination
- Preliminary technology discussions
- Complete surveying & mapping for engineering & design
- Continue interdepartmental and interagency coordination and reviews

LOOKING AHEAD

 = Council Review/ Approvals

*pending release of President's FY25 budget
